if provided, we will contact you via email

Name on DTE Account _____

DTE Account # _____ -- _____ -- _____ *Must be 12 digits*

Apartment Complex _____

Property Mgr _____

LEDs are extremely energy efficient and consume up to 90% less power than incandescent bulbs

Since LEDs use only a fraction of the energy of an incandescent bulb there is a dramatic decrease in power costs

Money and energy is saved in maintenance and replacement costs due to the long LED lifespan

On average, each bulb saves almost \$10 per year in electricity costs
